

Hello.

*Screen simulated

Say hello to the Model S-1100

Reliable remote power for offshore applications

Introducing the Model S-1100, the world's first IECEx and ATEX certified thermoelectric generator (TEG). Building on Gentherm Global Power Technologies' proven offshore power solutions, the S-1100 TEG is a reliable, low-maintenance electric generator optimized for use on unmanned offshore platforms.

Gentherm Global Power Technologies – **Power where you need it.**[®]
