

Hello.

*Screen simulated

Say hello to the Model S-1100

The Model S-1100 thermoelectric generator is the new standard in remote power delivery. Offering 100 watts of continuous power, the S-1100 is built to withstand the harshest environments on Earth. Featuring a solid-state, explosion proof design this unit is built to deliver.

Power: 100 Watts @ 12 Volts; 100 Watts @ 24 Volts

Certifications: IECEx; ATEX; CSA

Construction: Cast Aluminum; Stainless Steel

Ambient Operating Temperature: Max +60°C (140°F); Min -40°C (-40°F)
